

MAY 2026 · INVESTOR DECK

OnlyKrida

India's first sports talent discovery platform.

Every scout sees every athlete. Powered by Claude AI.

Anirudh

Founder · Hyderabad · tanirudh127@gmail.com

THE PROBLEM IN ONE LINE

99% of Indian athletes
never get scouted.

Not because they lack talent — **because they're invisible.** Geography and nepotism gate Indian sports. We remove the gate.

Indian sports scouting is broken.

Talent in Tier-2 and Tier-3 cities is invisible to scouts in metros. Recruitment runs on WhatsApp groups, paper records, and personal connections.

PARTICIPATION

400M+

Indians play sport regularly. **<1%** are professionally scouted.

GEOGRAPHY GAP

70%

of talent lives in Tier-2/3 cities — where scouts **never travel**.

SCHOLARSHIP WASTE

30%+

of annual sports scholarships go **unfilled** because the right athletes can't be found.

SCOUT INEFFICIENCY

90%

of physical scout trips yield **zero signings**. Scouts spend 80% of time on logistics.

Founder lens — the Hyderabad Test

"A talented kid in Hyderabad will never be seen by a scout in Mumbai unless they have connections. OnlyKrida removes the gate."

Why now — three tailwinds aligning.

2026 is the inflection point. Regulation, market growth, and league digitization converge on a discovery layer that doesn't exist yet.

TAILWIND 1 · REGULATION

DPDP Act 2027

India's data protection law lands **13 May 2027**. Under-18 platforms must implement verifiable parental consent (Aadhaar offline-XML, DigiLocker). 13-month build window. **OnlyKrida is building it now** — first-mover compliance moat.

TAILWIND 2 · MARKET

Sports-tech 2x in 5 years

Indian sports-tech market: **₹26,700 Cr (FY24)** → **₹49,500 Cr (FY29)**. 85% growth. IPL ecosystem \$16B. Khelo India budget ₹1,756 Cr. Sports = commerce, finally.

TAILWIND 3 · LEAGUES

PKL + AIFF digitizing

Pro Kabaddi Season 12: **₹1Cr+ player auctions**. AIFF's Blue Cubs grassroots push. Hyderabad FC's relocation to Delhi (Oct 2025) created a vacuum. **Zero digital discovery layer exists.**

One marketplace. Six sides. Every gate removed.

Athletes build a digital portfolio for free, forever. Scouts, coaches, teams, and brands subscribe to discover them. AI matches both sides. Verified fitness data settles trust.

FREE
FOREVER

Athletes

Highlights, stats, fitness scores, achievements — in one searchable portfolio. Discovered 24/7, not just at trials.

PAYS

Scouts

Filter by sport, position, age, geography, fitness zone. Claude-powered fit-score recommendations 0–100.

PAYS

Coaches

Manage teams, track performance, recruit talent, post opportunities. Coach-verified scores raise athlete trust 1.0x.

PAYS

Teams & Academies

Post trials, scholarships, tournaments. Athletes apply directly. Recruitment pipeline built in.

FREE

Fans

Follow grassroots athletes. Build the social proof that scouts actually look at. Discovery accelerator.

PAYS

Brands

Sponsor athletes. Run kit giveaways, fitness challenges, scholarship campaigns. Reach a fully-segmented audience.

Athletes are **permanently free**. Revenue is taken from the demand side.

Six role-tuned interfaces, one platform.

Tab bars, home screens, accent colors, and copy adapt per role. Every score, label, and message uses growth-oriented language. We never demotivate.

ATHLETE · #30D158

Build the portfolio

Profile completion gauge. AI profile coach. Highlights uploader. Fitness test runner. "Who viewed your profile" engagement loop.

SCOUT · #FF9F0A

Find the diamond

Structured search. AI scout cards. Shortlists. Verified-fitness filter. Direct messaging with athletes & coaches.

COACH · #64D2FF

Run the squad

Team management. Performance dashboard. Verify athlete fitness scores (1.0× multiplier). Post opportunities.

TEAM/ACADEMY · #FF453A

Recruit at scale

Trials, scholarships, tournaments. Application pipeline. Bulk shortlist exports. Internal team collab.

FAN · #BF5AF2

Champion the rise

Follow athletes. Like, comment, share. Build the audience that proves an athlete is worth scouting.

BRAND · #FF9F0A

Sponsor the journey

Branded fitness challenges. Kit giveaways tied to zones. Athlete sponsorship marketplace.

THE MAGIC, PART 1

Verified fitness data — the trust layer scouting never had.

Five standardized tests. Four verification tiers. Six growth-oriented zones. Every score is multiplied by a confidence factor that scouts can trust.

VERIFICATION TIERS — CONFIDENCE MULTIPLIER

0.7x

SELF-REPORTED

Athlete-entered baseline

0.85x

APP-MEASURED

Phone-sensor recorded in-app

1.0x

COACH-VERIFIED

Coach signs off on result

1.1x

CENTER-TESTED

Authorized testing center

GROWTH-ORIENTED ZONES — WE NEVER DEMOTIVATE

Starter

Building

Rising

Strong

Elite

Unstoppable

Tests live in-app: Yo-Yo IR1 · 20m sprint · 40m sprint · Agility T-test · Vertical jump. Sensor recording for app-measured tier.

Krida AI — Claude-powered scouting at the edge.

Two-tier AI: fast Sonnet for chat & coaching, heavyweight Opus with adaptive thinking for high-stakes matchmaking. Every scout gets a personal recruiter; every athlete gets a free coach.

CLAUDE-SONNET-4-6 · 300-800 TOK

Chat & profile coach

- Krida AI assistant in the app shell
- Profile improvement suggestions for athletes
- Caption help, post drafting, training plans
- JSON-returning prompts for structured tips

CLAUDE-OPUS-4-6 · ADAPTIVE THINKING · 1000-1500 TOK

Scout & opportunity matching

- Fit scores 0-100 with rationale
- Confidence multiplier applied to every score
- Personalized scout-side recommendations
- Opportunity matching for athletes (trials, scholarships)

ARCHITECTURE

All Claude calls route through a Supabase Edge Function (`claude-proxy`). Server-side keys, zero client exposure. 60s timeout. JSON safety with fallbacks.

\$7B addressable. \$800M directly. We need 1.5%.

Indian sports is bigger than people think. Scouting is structurally underserved. Our SOM target is conservative: 1.5% of SAM by Year 3.

INDICATOR	VALUE	SOURCE
Indian sports-tech market FY29	₹49,500 Cr	FICCI · EY 2025
Active organized scouts in India	~5,000	Industry estimate
Sports academies (registered)	15,000+	Khelo India · SAI
Khelo India annual budget	₹1,756 Cr	Union Budget 2025
IPL ecosystem value	\$16B	D&P Advisory 2024

Nobody owns the quadrant we own.

Verified fitness + India grassroots focus + AI scouting + opportunity marketplace — an empty quadrant. Closest competitor (KhiladiPro) is schools-first B2B2C with no scout side.

Where each player breaks — and where we don't.

PLAYER	FUNDED	FOCUS	CRITICAL GAP
KhiladiPro	\$1M pre-seed (2025)	AI fitness assessment, schools B2B2C	No scout-side product. No marketplace. Schools-first means slow UGC and no athlete agency.
StepOut	\$1.5M Pre-Series A	B2B analytics for clubs (AIFF, BFC)	No athlete-side product. Football only. Sells to clubs, doesn't surface talent.
AiSCOUT · RFYC	UK-based, RFYC partner	Trial events, AI fitness	Once-a-year event model. Not year-round discovery. India is a side market.
SportVot	₹1.63M raised	Match broadcasting	Score-keeping, not portfolios. Unstructured player data. No discovery loop.
KIRTI (Government)	SAI-backed	Talent identification	Funnels to elite academies only. Discovery is to you, not for you. No social layer, no scout side.
CricHeroes	Bootstrapped to scale	Cricket scoring app	Cricket only. Score-keeping not discovery. 49M users but no recruitment loop.
OnlyKrida	Pre-seed (this raise)	Multi-sport, athlete-first marketplace	— the empty quadrant: AI scouting + verified fitness + India grassroots + opportunity marketplace.

The kabaddi dataset nobody is building.

Pro Kabaddi is a real, capitalized league with zero digital grassroots layer. We can own it for ₹3–5 lakh.

THE VACUUM

0

kabaddi datasets on **Hugging Face**. Verified by direct search. Zero academic citations on raid-action recognition. The field is empty.

THE MONEY

₹1Cr+

PKL S12 player auction tags. **12 franchises**, professional capital, fan economics that match cricket on Tier-2 metrics.

THE CAPEX

₹3–5L

to capture **2,500 raid-action clips** with bounding boxes. OnlyKrida becomes the default citation for kabaddi AI work.

Anchor Partner

Telugu Titans — Hyderabad-based PKL franchise (owner: Mahesh Kolli). Natural partner. Replaces the post-Hyderabad-FC vacuum (Oct 2025 relocation to Delhi).

Six sides. One flywheel. Each side makes the others more valuable.

- More athletes → richer search inventory → more scouts
- More scouts → more discovery → more athletes sign up
- More coaches verifying → higher data trust → premium scout pricing
- More teams → more opportunities → reason for athletes to stay active
- More fans → social proof → scouts can short-circuit due diligence

Verified fitness data accumulates. Every test run is proprietary. **First-mover in Indian grassroots = compounding moat.**

Athletes free forever. Demand side pays.

Three subscription tiers for scouts, two for teams, a brand campaign marketplace. The Dubai diaspora tier is the only place we charge an athlete — and only because parents want it.

TIER	AUDIENCE	PRICE	INCLUDES
SCOUT BASIC	Independent scouts	₹999 / mo	50 searches, 10 shortlists, basic messaging
SCOUT PRO	Active scouts	₹2,499 / mo	Unlimited searches, AI recommendations, unlimited messaging
SCOUT ENTERPRISE	Scouting agencies	₹9,999 / mo	API access, bulk export, team collab, analytics
TEAM STARTER	Small academies	₹1,999 / mo	5 opportunities, 5 team members
TEAM PRO	Established academies	₹4,999 / mo	Unlimited opportunities, 25 members, analytics
BRAND CAMPAIGNS	Sportswear, FMCG, fintech	₹5K – ₹1L	Branded fitness challenges, kit giveaways, scholarships
DUBAI DIASPORA	NRI parents (Dubai/UAE)	₹999 / yr	Premium athlete tier — "get scouted by Indian academies without flying back"

Unit economics work at small scale.

Software-grade margins, real-world CAC. The Scout Pro cohort pays back in <3 months and compounds for 12.

CUSTOMER ACQUISITION COST

₹5K

Per paying scout. Ground events, founder-led sales, HCA TG20 + Subroto Cup sponsorships.

LIFETIME VALUE (SCOUT PRO)

₹29,988

12-month retention × ₹2,499/mo. Retention model based on UK/US scouting platform benchmarks.

LTV : CAC

6x

Healthy software-marketplace ratio. Headroom to spend on growth as the funnel matures.

GROSS MARGIN

85%

Cloud + Claude API + Supabase. No inventory, no field operations after onboarding.

M18

Break-even. Conservative path on current hiring plan and Hyderabad-Bengaluru ground motion. Series A unlock on traction, not capital.

GTM — Hyderabad first, named grounds, named coaches.

No top-of-funnel ads. We win by knowing every Hyderabad coach by name and being on the touchline at every HCA TG20 match.

What's already shipped.

Wave 1 MVP is in production as of April 2026. 13-table Supabase backend with RLS. 9 user roles. Real-time messaging. AI scout cards. Five fitness tests. Closed beta launches now.

BUILT · WAVE 1

MVP — Live

- Auth + profiles for 9 user roles
- 6 role-specific home screens with role accents
- Social feed (posts, likes, comments, video)
- Discover engine (search, filter, trending)
- Real-time DM + group messaging
- 11 notification types
- 5 opportunity categories with applications
- AI scouting (Claude Opus + adaptive thinking)
- 5 fitness tests + sensor recording
- Profile completion + AI profile coach
- 13 Supabase tables, RLS policies, real-time subs

BETA · LAUNCHING NOW

First cohort — Hyderabad

- Target: 50 athletes, 5 scouts (Month 1)
- HCA TG20 League sponsorship secured
- Telugu Titans (PKL) outreach in motion
- Sreenidi Deccan FC outreach in motion
- DPDP-compliant parental consent in build
- Hyderabad-20 ground list locked

Honest framing: **pre-revenue today**. This raise funds the closed-to-paid conversion through Q3 2026.

Founder lived the problem. Hiring the rest now.

FOUNDER · CEO

Anirudh

- Former Indian footballer — lived grassroots scouting failure
- Data engineer — built the entire MVP solo
- Hyderabad-based — ground knowledge, named coaches, ground access
- Domain + execution + geography in one person

tanirudh127@gmail.com · Hyderabad

HIRING · WAVE 2

Senior full-stack engineer

React Native + Supabase + Claude API. Lead Wave 2 (live fitness recording, scout shortlists, opportunity pipeline).

HIRING · WAVE 2

GTM lead — Hyderabad

Run Hyderabad-20 ground motion. HCA + AIFF + PKL relationships. Eventually own Bengaluru & Dubai expansion.

OPEN · ADVISORY

Ex-AIFF / HCA / PKL leadership

Strategic advisor seats reserved. Help us read the politics of Indian sports.

Three-year revenue plan — the path to ₹16.8 Cr ARR.

YEAR	STAGE	ATHLETES	PAYING SCOUTS & TEAMS	ARR (INR)	ARR (USD)
Year 1 · FY27	Closed-to-open beta · first paid	10,000	~250	₹81 Lakh	\$97K
Year 2 · FY28	Multi-city · Dubai launch	85,000	~1,400	₹4.2 Cr	\$504K
Year 3 · FY29	Pan-India · MENA expansion	300,000	~5,500	₹16.8 Cr	\$2.0M

OPERATING DISCIPLINE

- Current burn: ₹2L / mo (1-person team)
- Post-raise burn: ₹5L / mo (3-person + ground ops)
- Break-even: Month 18
- Runway from this raise: ~24 months

THE ASK

₹3 Cr

Angel round · Pre-seed

18 months of runway through paying-scout milestone. Series A trigger: ₹50L MRR.

ALLOCATION	%	WHAT IT BUYS
Engineering hires	50%	Sr full-stack + DevOps + AI eng
Hyderabad + Bengaluru ground ops	25%	GTM lead + sponsorships + ground events
Kabaddi dataset capex	15%	2,500-clip raid-action dataset, PKL partnerships
DPDP compliance + ops	10%	Consent manager, legal, infra hardening

WHAT THIS ROUND PROVES

Hyderabad → Bengaluru → Mumbai · 10K active athletes · first 250 paying scouts · kabaddi dataset shipped · DPDP-compliant by 13 May 2027 deadline.

VISION

Every scout sees every athlete.

Hyderabad. Bengaluru. Mumbai. Delhi. Then the diaspora corridor: **Dubai → MENA → emerging-market sports economies**. Every grassroots athlete, indexed. Every scout, a Krida AI co-pilot. Talent stops being a function of geography.
